THAILAND, 83130.

Dear John V. Starbuck:

April 29th 1992.

Enclosed you will find one original colour slide (copyright by me) shot at the trial-launchings of (my design) self-launching-by-"disabled": "Little Legend", April 14th - 22nd 1992 at Bawai Beach. Please accept this memento as a token of my personal gratitude to you.

Your donation helped to launch, put out to sea and haul ashore, "Little Legend", what I believe is the world's first-ever self-launch-by-non-walkers-dinghy on 14th April 1992. You probably helped launch, put out and haul back a thousand other similar dinghies in the future.

Here I'm now working to buy at very favorable cost a 12 ft state of the art sailing catamaran to be named "Atlantis Legend". She will be the world's first ocean yacht specially fitted out for crewing by all non-walkers. The new owner will be one-arm Sam (ex-crewman, "Henry Wagner") on behalf of Atlantis Society. With your help we hope to finish the conversion of "Atlantis Legend" and enter her in next December's King's Cup Regatta race, at Phuket, for all-comers, and with God's help... win!

Our motto: Cannot say "cannot!".

Please send your U.S tax-deductible donations, to:
Atlantis Society, a/c 043-114440, Chebank, 201, West 4th St,
New York, NY 10014. Mark your check "Atlantis Legend".

Meanwhile we're also busy opening and lighting up the eyes of local "disabled" youngsters; sixteen -each solo -have now been out in "Little Legend". We're aiming for six at-least-one-limb-missing-kids a day in the next dry season.

PLEASE TELL YOUR FRIENDS ABOUT US!

I've no objection to the publishing of this copyright picture, but please acknowledge to Prasert Naowply ("boat-attendant") and let me know where published and when, and arrange for any payment, minus your costs and commission, to be made to Atlantis Society at the above account.

Yours sincerely,

Tristan Jones.

PS latest news! We shall be in Ripley's "Believe It Or Not!" cartoon in US newspapers on 29th August this year.
